<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>In annotated "Python Whirlwind Tour.txt", we have seen some terrible looking tagged keyphrases such as: generally, functionally, etc.</p> <p>We need to make changes in the BR3_IR3_tagger.py to make sure such KPs are eliminated using their POS tag value. Test your changes with the following datasets:</p> <ol style="list-style-type: none"><li>1. Python Whirlwind Tour.txt</li><li>2. Python Tutorial.txt</li><li>3. Python 3 - Library Reference.txt</li></ol> <p>In case elimination of some of the keyphrases is undesirable, find a common word threshold that might help us save them from getting discarded.</p> <p>For running "Python 3 - Library Reference.txt", you can use master_cands_0.pkl from this link - <a href="https://drive.google.com/file/d/1QdZvcVPnPHR4XfKRwscs8PWBJGskRYcF/view?usp=sharing">https://drive.google.com/file/d/1QdZvcVPnPHR4XfKRwscs8PWBJGskRYcF/view?usp=sharing</a></p>
