Target version:	1-RK-J-1	Spent time:	1.50 hour
Description			
While testing search similarity, we found that there was a difference in scores in the following pairs of search terms: 1. 'object-oriented', 'object oriented' 2. 'programming', 'programming?'			
We dont want difference in similarity scores for the above. one way to do it is to replace symbols with space in both purple link texts and search terms.
