How to include one html file into another?

Reference: <https://stackoverflow.com/questions/8988855/include-another-html-file-in-a-html-file>

html:

```
<div data-include="header.html"></div>
```

javascript: (put this code in config.js and include it in the head tag of the html file)

```
document.addEventListener("DOMContentLoaded", function() {
  var includes = document.querySelectorAll("[data-include]");
  includes.forEach(function(include) {
    var file = "views/" + include.dataset.include + ".html";
    fetch(file)
      .then(function(response) {
        return response.text();
      })
      .then(function(data) {
        include.innerHTML = data;
      })
      .catch(function(error) {
        console.error("Error loading the file:", error);
      });
  });
});
```
