

RK-J - Bug #3179

Correct behaviour while overwriting with wrongly formatted book

09/05/2023 05:51 AM - Ram Kordale

Status:	Review	Start date:	09/05/2023
Priority:	Normal	Due date:	
Assignee:	Venmuhilan B	% Done:	100%

Target version:	1-RK-J-1	Spent time:	0.00 hour
Description			
<p>I ingested Corey Shafer's Python Beginner's book (actually, this ticket has nothing to do with this book and should be reproduceable with any book).</p> <p>Then, i overwrote (without failing option) with a book where the zip file contained a folder that contained all the text files. The book moved to completed state. However, the book was not overwritten.</p> <p>Correction needed:</p> <ul style="list-style-type: none">- overwrite should have failed.- however, current version should not be disturbed.- we should have a way of correcting the zip file and actually successfully overwriting it. <p>I am told that a similar problem exists in first time ingestion. Please check and fix this as well.</p>
