<b>Description</b>			
<p>Today, when a book is ingested successfully, it ends in (completed)/to-be-curated state. Then, one has to curate to move it to completed.</p> <p>Going forward, provide an option "Curate manually" similar to overwrite during ingestion. Default should be off which means that by default the ingestion should end in 'completed' state.</p> <p>If the user switches 'curate manually' to on, please do what is done today.</p>
