Description

Do this assuming that 3664 is done.

Minimal test case I

1. Choose new themes. Let chosen themes set be S.
2. Close all windows and tabs of the browser
3. Goto the site again
4. Click 'Choose your themes'. The chose themes set must exactly be S.

The storage should be for a grade and subject combo. Both the availability of styles and the user preference for different combos would be different.
