Target version:		Spent time:	0.00 hour
<b>Description</b> If we think AI's answer is wrong, we use prompt-5 or prompt-10. Going forward, please do the following: -remove current prompt-10 logic. -replace prompt-5 with prompt-for-wrong-answer.  If we think that the answer is still wrong after 3 attempts, please make the prompt as "<prefix-question-for-still-wrong-answer> <AI's answer choices>. Answer seems to be <correct answer choices>" and try twice more.
